

COINMONIE PRIVACY POLICY

How Coinmonie Collects, Processes, and Protects Personal Data Across Platform Services and Settlement APIs

- **Status:** Final Published Version
- **Effective Date:** August 14, 2026
- **Data Controller:** Moniemax Digital Technology Solutions Limited dba Coinmonie ("Coinmonie", "we", "us", "our")
- **Privacy Contact:** Data Protection Lead, privacy@coinmonie.com
- **Compliance & Escalations:** compliance@coinmonie.com

1. Scope and Controller Information

This Privacy Policy (the "Policy") outlines how **Moniemax Digital Technology Solutions Limited dba Coinmonie** collects, uses, stores, shares, and protects personal data when you access our websites, use our mobile and web applications, perform fiat-to-stablecoin or stablecoin-to-fiat conversions, process payment flows, integrate with our settlement APIs, or interact with our services.

This Policy applies to individual retail customers (KYC), officers, representatives, and beneficial owners of business entity clients (KYB), API clients, and website visitors. Moniemax Digital Technology Solutions Limited dba Coinmonie acts as the Data Controller for the processing activities detailed herein, except where operating explicitly as a Data Processor on behalf of an institutional API client.

- **Primary Supervisory Authority:** Nigeria Data Protection Commission (NDPC).

2. Categories of Personal Data Collected

Moniemax Digital Technology Solutions Limited dba Coinmonie collects personal and business data necessary to deliver payment services and adhere to statutory obligations:

- **Individual Identity & Eligibility Data:** Full name, date of birth, nationality, home address, official identity document numbers, live selfie/photograph, occupation, and source of income/wealth.
- **Business & Ultimate Beneficial Ownership (KYB) Data:** Corporate formation documents, registered address, business activity description, tax identification, licenses, and full identifying details of directors, authorised signers, key officers, and ultimate beneficial owners (UBOs).
- **Contact & Account Information:** Email address, telephone number, user credentials, preferences, authentication logs, and customer support communications.
- **Financial & Transaction Data:** Bank account numbers, payment rails, quotes, execution rates, fees, payer/payee details, transaction amounts, timestamps, invoice copies, and chargeback/refund records.

- **Blockchain & Wallet Data:** Public blockchain wallet addresses, transaction hashes, smart contract interactions, network types, public ledger activity, and wallet risk assessments.
- **Device & Technical Data:** IP address, device fingerprints, operating system, browser type, application version, geolocation data, security event logs, and access timestamps.
- **Compliance & Screening Data:** KYC/KYB verification results, sanctions screening logs, Politically Exposed Person (PEP) status checks, adverse media results, risk scores, transaction monitoring flags, and investigation notes.
- **Biometric Verification Data:** Facial geometry and liveness verification data processed strictly via authorised identity partners for fraud prevention and identity authentication, subject to explicit consent or statutory authorisation.
- **API Developer Data:** Developer API keys, request/response metadata, integration endpoints, and transaction metadata submitted via developer integrations.

3. How Data is Collected

We collect personal data through the following streams:

- **Direct Interaction:** Information provided when registering an account, submitting KYC/KYB forms, completing transactions, or communicating with customer support.
- **Automated Data Capture:** Technical device parameters, application telemetry, interaction metadata, and cookies captured during service usage.
- **Third-Party & Public Sources:** Information obtained from identity verification vendors, fraud prevention networks, sanctions databases, commercial registries, blockchain analytics engines, bank partners, and public blockchains.
- **API Clients & Business Partners:** Transaction and end-user data supplied by enterprise merchants or partners using Coinmonie settlement infrastructure.

4. Purposes and Lawful Bases for Processing

Processing Purpose	Operational Scope	Primary Lawful Basis (NDPA 2023)
Service Execution & Account Management	Onboarding clients, routing transactions, executing fiat/stablecoin conversions, authenticating users, managing APIs, and settling payments.	Contractual Necessity

AML/CFT/CPF & Regulatory Compliance	Executing KYC/KYB checks, screening PEPs and sanctions, monitoring transactions, retaining compliance records, and reporting to NFIU/SEC/CBN.	Legal Obligation
Security & Fraud Prevention	Detecting unauthorised access, preventing account takeovers, verifying wallet ownership, and evaluating network risk.	Legal Obligation & Legitimate Interest
System Improvement & Platform Analytics	Monitoring API efficiency, troubleshooting technical errors, performing capacity planning, and upgrading financial infrastructure.	Legitimate Interest
Direct Communication & Support	Sending transaction confirmations, security notices, policy updates, and addressing customer support tickets.	Contractual Necessity & Legitimate Interest
Marketing Communications	Sending updates regarding new fiat corridors, product feature rollouts, and general promotional materials.	Consent (With Opt-Out Right)

5. Automated Decision-Making and Risk Profiling

Moniemax Digital Technology Solutions Limited dba Coinmonie utilises automated compliance engines to screen transactions, detect potential fraud, assess wallet risk, and identify sanctions exposure. Automated triggers may temporarily delay, hold, or flag a transaction for internal compliance review.

Where an automated processing decision produces a legal or significantly adverse effect, affected users may request a manual human review by contacting privacy@coinmonie.com, subject to lawful exceptions designed to preserve financial crime controls and anti-tipping-off provisions.

6. Sharing and Disclosure of Personal Data

Moniemax Digital Technology Solutions Limited dba Coinmonie shares data strictly on a confidential, need-to-know basis with the following entities:

- **Financial & Infrastructure Partners:** Liquidity providers, banking partners, payment processors, wallet custodians, and stablecoin issuers necessary to complete transaction execution.
- **Verification & Security Vendors:** Identity verification platforms, biometric screening services, blockchain analytics tools, cloud hosting infrastructure, and customer support software.
- **Institutional API Clients:** Merchants or partners with whom a user transacts using integrated Coinmonie payment gateways.
- **Regulators & Law Enforcement:** Lawful disclosures to the NFIU, CBN, SEC, NDPC, tax authorities, courts, or law enforcement bodies in response to valid legal requests, court orders, or statutory reporting mandates.
- **Corporate Restructuring:** Authoritative counterparties in connection with any merger, acquisition, financing, or sale of company assets, protected under strict non-disclosure obligations.

Coinmonie does not sell or rent customer personal data to third parties for commercial gain.

7. International Data Transfers

Personal data collected by Moniemax Digital Technology Solutions Limited dba Coinmonie may be stored or processed outside Nigeria where our cloud infrastructure, service providers, or banking partners operate.

Prior to transferring data across international borders, Coinmonie ensures compliance with the Nigeria Data Protection Act (NDPA) 2023. Transfers rely on adequate jurisdiction designations, binding regulatory standard contractual clauses, or explicit statutory exemptions. We apply rigorous encryption and contractual safeguards to preserve data confidentiality during cross-border routing.

8. Data Retention and Deletion Protocols

8.1 Retention Period

In accordance with statutory AML/CFT/CPF laws and financial recordkeeping requirements, Moniemax Digital Technology Solutions Limited dba Coinmonie retains mandatory Customer Due Diligence (CDD), KYC/KYB documentation, transaction logs, audit trails, and monitoring records for a minimum of five (5) years following the closure of an account or the completion of a transaction. The retention window extends automatically if subject to ongoing litigation, law enforcement holds, or direct regulatory directives.

8.2 Interplay with Data Deletion Policy

Where a user exercises their right to request erasure under Coinmonie's Data Deletion Policy, statutory legal obligations supersede contractual deletion requests. Data required for financial crime compliance, tax reporting, and legal defence will be securely isolated and archived for the

required statutory retention window before being permanently destroyed. Non-essential data (such as marketing preferences) will be deleted upon validated request.

9. Technical and Organisational Security

Moniemax Digital Technology Solutions Limited dba Coinmonie enforces robust multi-layered security measures to prevent unauthorised data access, loss, or disclosure. Safeguards include end-to-end encryption in transit (TLS 1.3) and at rest (AES-256), strict role-based access controls (RBAC), multi-factor authentication (MFA), continuous vulnerability assessments, and secure API architecture.

Users remain responsible for securing their account credentials and API access tokens. Suspected security incidents or account compromises must be reported immediately to compliance@coinmonie.com.

10. Data Breach Notification Management

Moniemax Digital Technology Solutions Limited dba Coinmonie maintains a formal incident response plan. In the event of a security breach involving personal data that poses a risk to the rights and freedoms of data subjects, Coinmonie will notify the Nigeria Data Protection Commission (NDPC) and affected individuals within the timelines required under the NDPA 2023, except where law enforcement or regulatory authorities lawfully direct delayed notification.

11. Your Data Protection Rights

Subject to legal limitations and statutory exemptions, users possess the following rights under Nigerian data protection law:

- **Right of Access:** Request copies of personal data held by Coinmonie.
- **Right to Rectification:** Request correction of inaccurate, incomplete, or outdated information.
- **Right to Erasure (Right to be Forgotten):** Request data deletion, subject to mandatory statutory retention rules.
- **Right to Restrict Processing:** Request restricted processing under specific legal conditions.
- **Right to Object:** Object to data processing based on legitimate interests or direct marketing.
- **Right to Data Portability:** Receive machine-readable copies of personal data provided directly by you.
- **Right to Withdraw Consent:** Revoke processing consent at any time without affecting previous lawful processing.

To exercise any of these rights, submit a written request to privacy@coinmonie.com. Coinmonie verifies the requester's identity prior to processing requests.

12. Cookies and Tracking Technologies

Moniemax Digital Technology Solutions Limited dba Coinmonie utilises essential cookies and session tokens necessary for system security, user authentication, and web session maintenance. Non-essential analytics or performance cookies are deployed in accordance with user consent preferences selected through our web cookie consent tools.

13. Protection of Minors

Coinmonie's platform, services, and APIs are designed strictly for individuals aged 18 years or older. We do not knowingly collect personal data from minors. Accounts identified as belonging to individuals under 18 will be closed immediately and associated data handled according to applicable compliance protocols.

14. API Clients and External Links

Where Moniemax Digital Technology Solutions Limited dba Coinmonie acts as a Data Processor for an institutional API client, the end-user must review the primary privacy notice of that API merchant/client. Coinmonie is not responsible for third-party websites, external wallet protocols, or third-party bank applications integrated with our network.

15. Policy Governance and Contact Details

Moniemax Digital Technology Solutions Limited dba Coinmonie may periodically update this Policy to align with regulatory amendments, platform expansions, or technological advancements. Revised versions will be published with an updated effective date.
